

SPARK Process
Efficiency & Modernization
Meeting #3: Initial ideas & updates
March 1, 2022

Agenda | Initial ideas & updates

- 1 **Overview:** Purpose of today and where we are in the process (20 min)
- 2 **Review:** Approach to filtering submissions (45 min)
- 3 **Consider:** Potential programmatic areas & opportunities for impact (25 min)
- 4 **Discuss:** Next steps in shaping and prioritizing the investment portfolio (30 min)

Where we are & objectives for today

Objectives for today

- 1 Review filtering approach building on panel input
- 2 Shape and refine investable programs
- 3 Engage in initial discussion of prioritization approach

Idea submissions significantly exceed available funds...

Idea submissions received to date total almost \$13B, and more opportunities may arise, far exceeding available SFRF funding

Advisory Panel	Amount submitted (\$B)
Connectivity	1.2
Economic Revitalization	7.9
Efficiency & Modernization	0.9
Health & Education	2.8
Total	~12.8

~\$721M
Available SFRF funding

...highlighting critical role of SPARK Advisory Panels

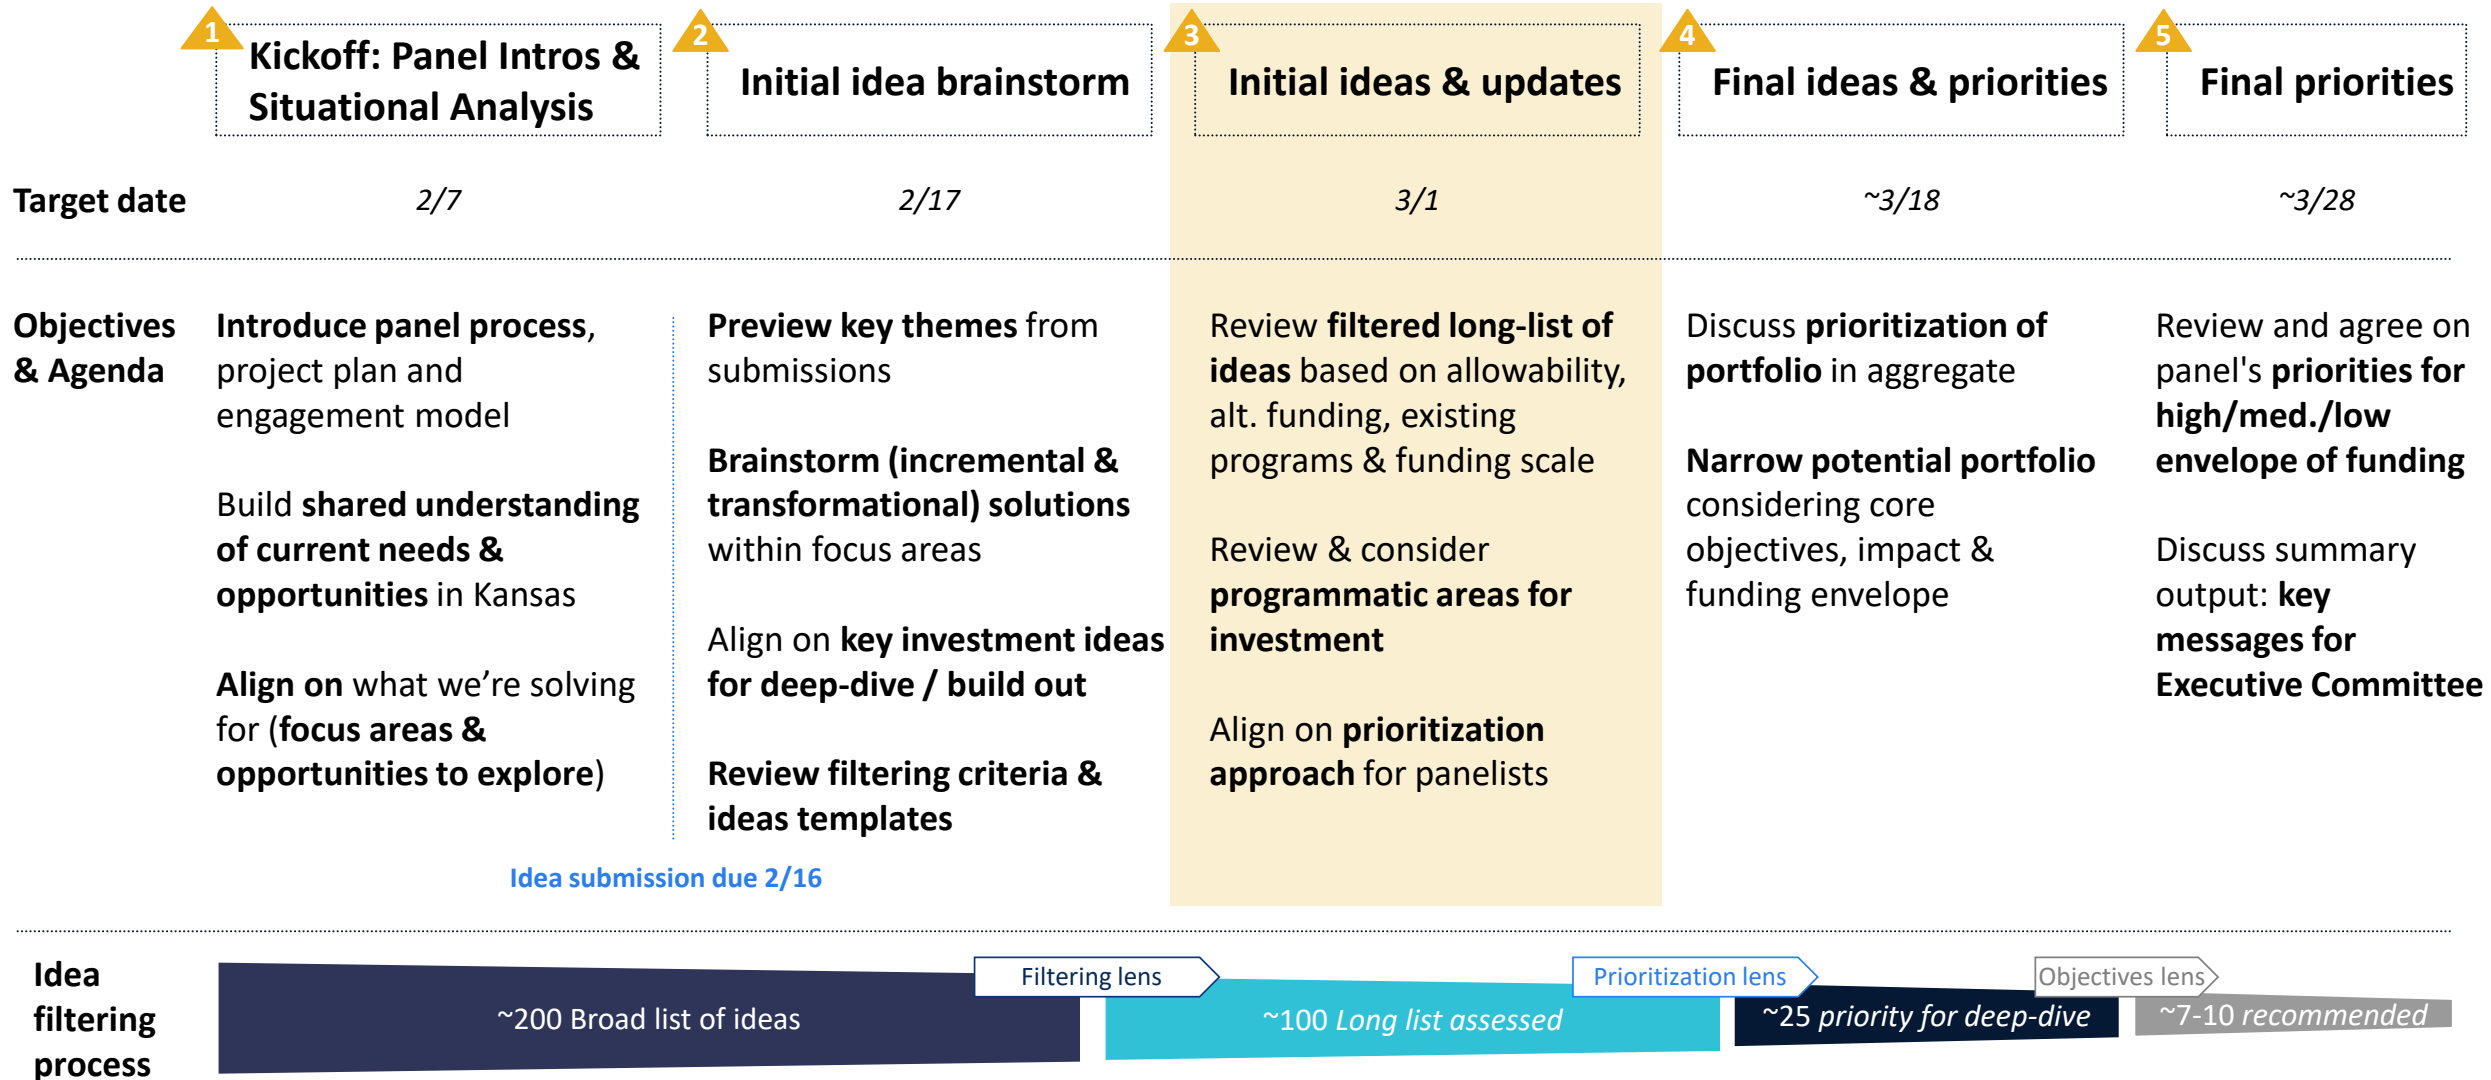

Need for Advisory Panels to:

Prioritize: Focus on the **key areas of need / opportunity** and identify **where SPARK can have long-term impact with one-time dollars**

Identify funding extension opportunities: Continue looking for ways to **leverage local and agency funds** to maximize use of discretionary funds

Note: Submissions requests may include similar or overlapping recommendations for utilization of funds; numbers have been rounded to the nearest \$0.1B; submissions have not been evaluated for duplication

We anticipate 5 meetings to reach a final recommendation

The SPARK process is focused on allocating funds to programmatic areas of strategic focus

- The target output of the SPARK Advisory Panels is recommended portfolios for funding at the programmatic level
- To support that, submissions were solicited for investment ideas (not grant applications for funding)
 - Submissions now reside within programmatic areas
- Idea submissions will be used to shape programs and recommended funding envelope
- However specific project approval cannot happen in Advisory Panel context, per state and federal procurement guidelines

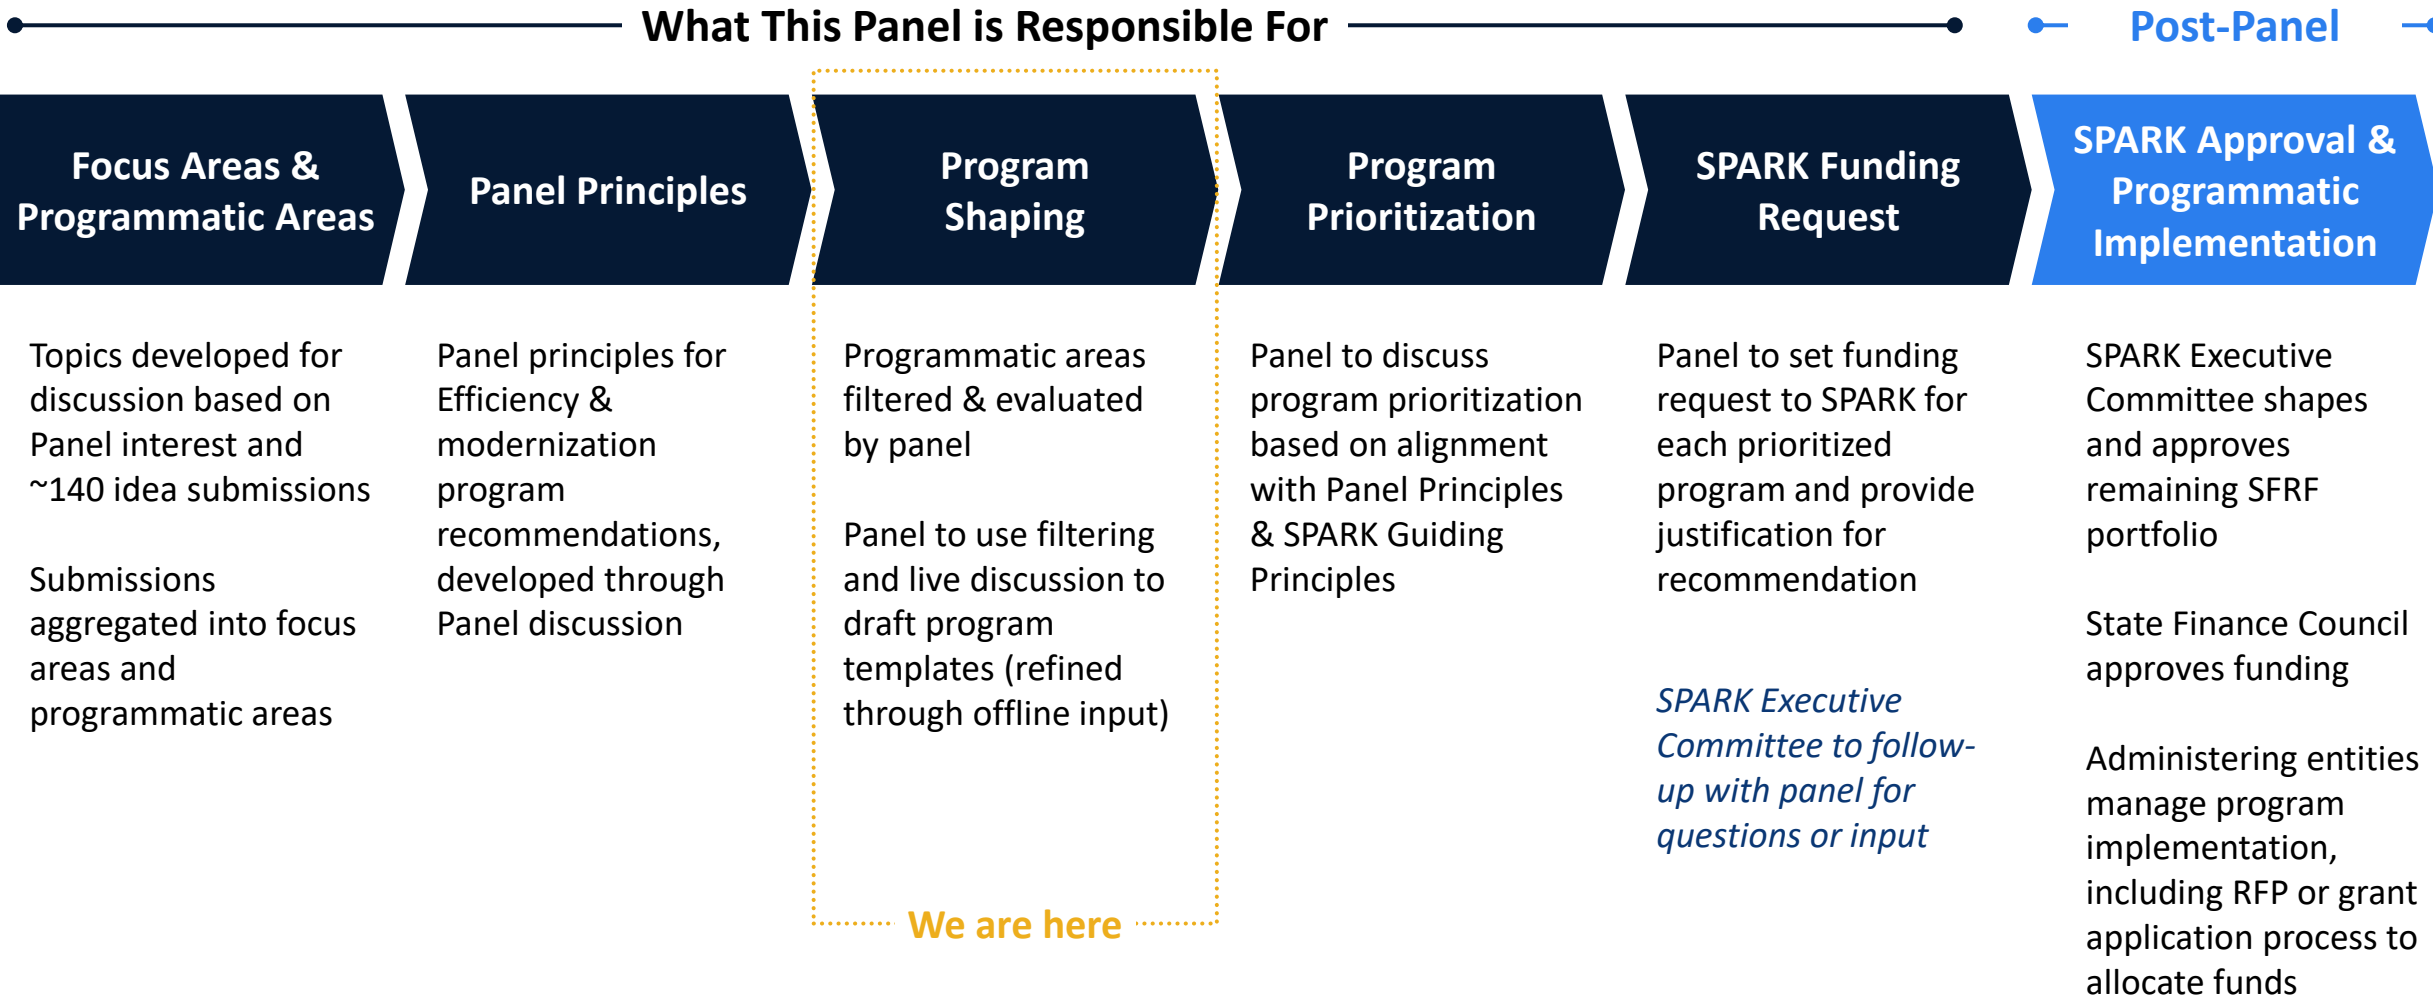

Goal of SPARK Process: Allocate funds to programmatic areas of strategic focus for the SPARK Executive Committee and State Finance Council to approve

Implementation & program design after SPARK process

After the SPARK process is complete an administering entity will be identified (State agency or 3rd party organization)

In accordance with Treasury guidance, the administering agency will then run a formal procurement process, including, only where appropriate, soliciting eligible applications

Backup | Efficiency & Modernization Advisory Panel is responsible for defining and prioritizing programmatic areas for consideration by SPARK

We are here

Agenda | Initial ideas & updates

- 1 **Overview:** Purpose of today, where we are in the process, what's next (20 min)
- 2 **Review:** Approach to filtering submissions (45 min)
- 3 **Consider:** Potential programmatic areas & opportunities for impact (25 min)
- 4 **Discuss:** Next steps in shaping and prioritizing the investment portfolio (30 min)

What we heard in Meeting 2

Investments in **state agency programs** should be considered prior to local investment needs

Investments should **avoid establishing programs requiring ongoing funding** (e.g., new long-term budget items)

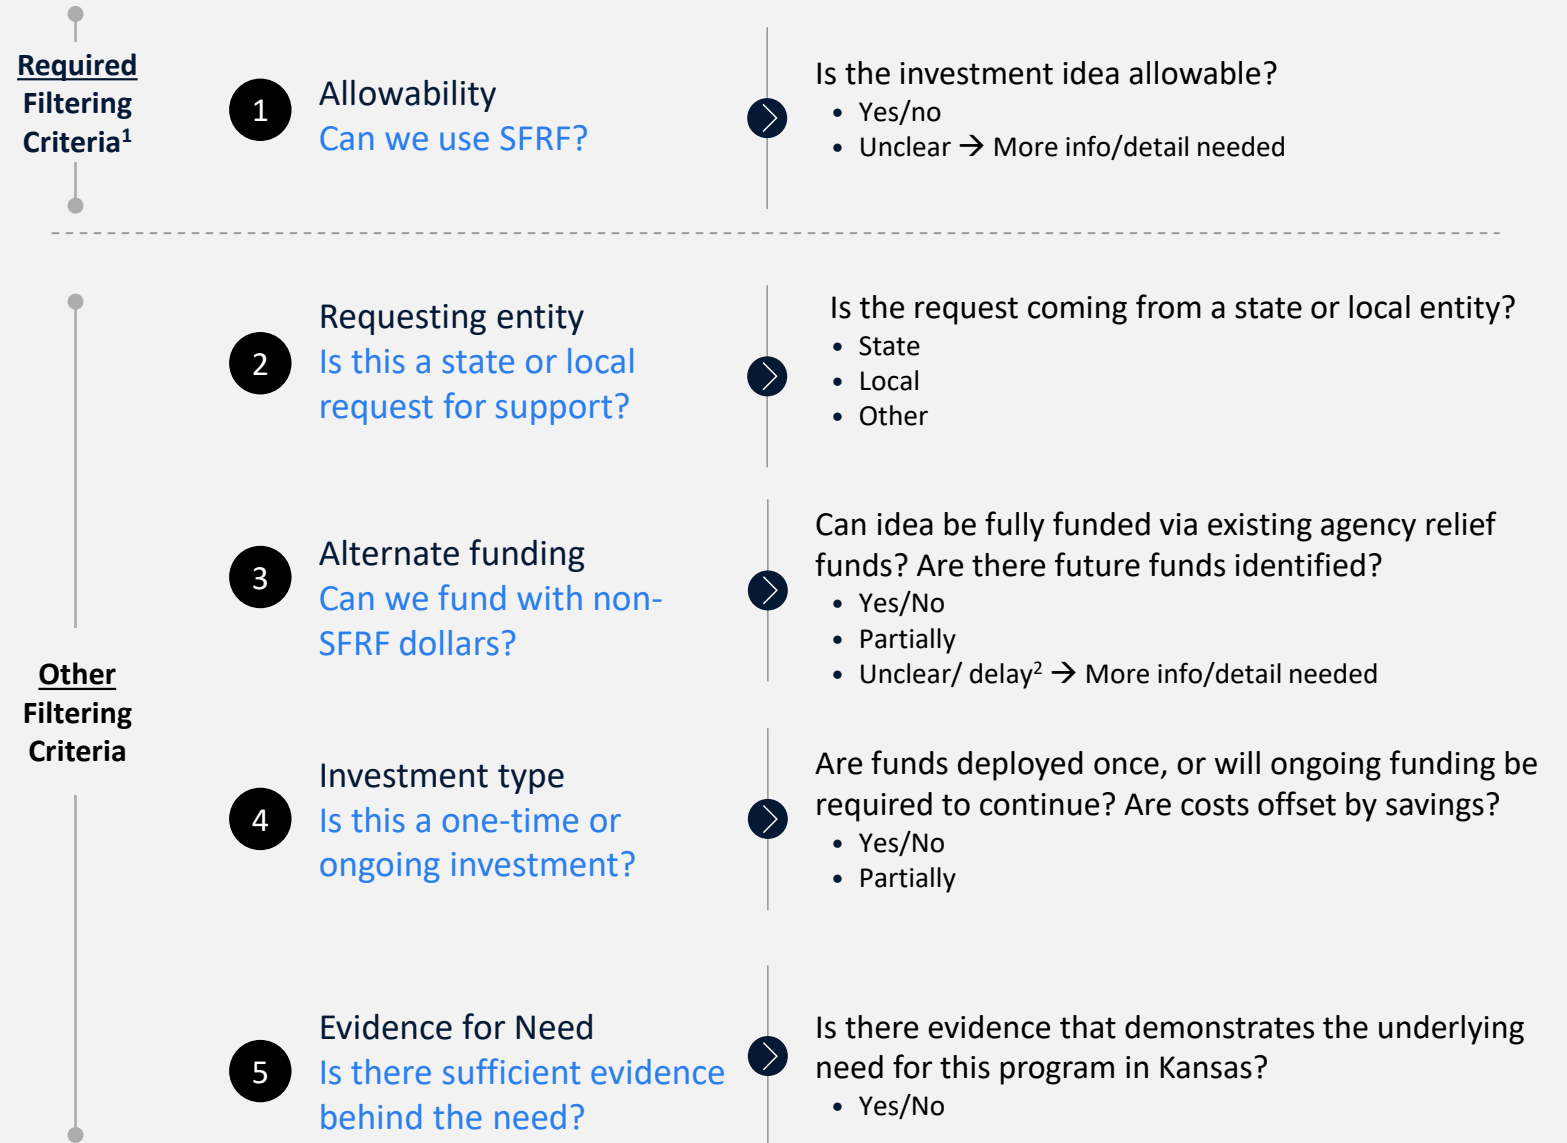

Investments should be made in **areas that have largely allowable programs** and **existing funding is insufficient**

Are there additional principles the Panel should consider?

Guiding principles for SPARK and investment of ARPA funds

- **Prioritize sustainable programs & investments** through one-time use of funds vs substantial expansion of existing services
- **Combine with / leverage local and agency funds** to maximize use of discretionary funds
- **Foster long-term systemic impact** for Kansans
- **Consider equitable opportunities** and outcomes
- **Enable flexibility within investment strategies** (e.g., in case of emerging needs, changing federal landscape)
- **Ensure results are measurable** to enable tracking & transparency

Filtering criteria to inform programmatic investment areas, shaped by panel feedback

1. Required filtering for allowability is not a task for the advisory panel

2. For example, items that would be funded under the Infrastructure Investment and Jobs Act (IIJA) or potential Build Back Better Act, or items that 10 are likely to be included in the State Budget for FY23

Note: SFRF – State Fiscal Recovery Funds

Initial filtering conducted to segment submissions between state, local, and other

State ideas

Submitter types: State entities e.g., Corrections, KDOR, KBOR, KBI, non-profit organizations, higher ed. institutions, and private citizens

Focus Area	# Submissions	\$M Requested
Facilities modernization	20	~439
IT infrastructure	38	~223
Safety and security	8	~45
Continuity of operations	15	~59

81

~765

Note: 9 additional submissions ("Other") from private entities, primarily in IT infrastructure

Local ideas

Submitter types: Local police departments, county / city governments, higher ed. institutions, and private citizens

Focus Area	# Submissions	\$M Requested
Facilities modernization	20	~61
IT infrastructure	5	~5
Safety and security	23	~7
Continuity of operations	3	~2

51

~75

Based on panel input from last session; we will review & discuss separately

Source: Ideas submitted by state agencies and the public

State input | Summary of submissions by focus area

<10 submissions  >40 submissions

Focus Area	Programmatic Areas	# Submissions	\$M Requested
 Facilities modernization	<ul style="list-style-type: none"> • ~\$215M: New facilities development – Corrections, TAG, KLETC • ~\$175M: Facilities upgrades, maintenance, and renovation – Corrections, TAG, OFPM, Judicial, KBI • ~\$50M: State universities facilities demolition and renovation – KBOR 	20	~439
 IT infrastructure	<ul style="list-style-type: none"> • ~\$100M: Technical infrastructure – Commerce, Judicial, OITS, Corrections • ~\$80M: Digital government – Children's Cabinet, KDOL, Judicial, OITS • ~\$45M: Cybersecurity – KBOR, OITS, Judicial 	38	~223
 Safety and security	<ul style="list-style-type: none"> • ~\$40M: Law enforcement equipment upgrades and maintenance – KHP • ~\$6M: Physical safety enhancements – OFPM 	8	~45
 Continuity of operations	<ul style="list-style-type: none"> • ~\$34M: State operations support – Judicial, KDOL, State Fire Marshall, KBI • ~\$25M: Equipment and materials replacement – KDOR 	15	~59

Notes: Agencies / entities with largest \$ submissions across each programmatic area highlighted above; numbers may not tie due to rounding; total submission counts exclude submissions considered 'not allowable' in the Final Rule; Source: Ideas submitted by state agencies and the public

Filtering deep dive | State facilities modernization

Non-exhaustive¹

Programmatic area	Pathway to Allowability	Investment type	Alternative Funding	Evidence for need
 New facilities development <ul style="list-style-type: none"> • \$181M: Career centers, work release centers (Corrections) • \$20M: Armory (TAG) • \$13M: KLETC Training Infrastructure (KLETC) • \$1M: EMDTC (KS 911 Coordinating Council) 	Yes	One-time use of funds; agencies to own maintenance & operations		<ul style="list-style-type: none"> • New facilities indicate statewide benefit (e.g., career centers, work release centers) • Infrastructure required to deliver critical services (e.g., EMDTC, armory) • Aligned with long term capital improvement plans
 Facilities upgrades, maintenance, and renovation <ul style="list-style-type: none"> • \$110M: HVAC replacements (Corrections, OFPM, KBI) • \$65M: Maintenance & renovation (TAG, OFPM, Judicial, KS State Schools for the Deaf & Blind) 	Yes	One-time use of funds		<ul style="list-style-type: none"> • Third party facility assessments • Life expectancy of current equipment has been surpassed • Facilities require enhancements to be up to code
 State universities facilities demolition and renovation <ul style="list-style-type: none"> • \$50M: Capital Renewal Initiative (KBOR) 	Yes	One-time use of funds		<ul style="list-style-type: none"> • Third party assessments

For discussion

- 1 Which programmatic areas appear to be the most important to include in facilities modernization?
- 2 What type of anchor projects or investments should the panel consider in shaping a facilities modernization program?
- 3 Where do we need additional information or evidence to shape a facilities modernization program?
- 4 How do you see a facilities modernization program aligning with SPARK guiding principles?

¹ Examples intended to capture largest projects submitted; Note: KLETC = Kansas Law Enforcement Training Center, EMDTC = Emergency Mobile Dispatch and Training Center, TAG = Kansas Adjutant General's Department; numbers may not tie due to rounding; Source: Ideas submitted by state agencies and the public

Filtering deep dive | State IT infrastructure

Non-exhaustive¹

Programmatic area	Pathway to Allowability	Investment type	Alternative Funding	Evidence for need
 Technical infrastructure <ul style="list-style-type: none"> • \$52M: Public Broadcasting (Commerce) • \$38M: Interoperability (Judicial, OITS) • \$11M: Hardware equip. (Corrections, Judicial) 	Yes	One-time use of funds		<ul style="list-style-type: none"> • Target impact to quality and efficiency of gov. services • Current systems / software identified as outdated
 Digital government <ul style="list-style-type: none"> • \$77M: Process modernization, digitization of data (KDOL, Judicial, OITS, KDOR, Children's Cabinet) 	Yes	One-time use of funds; agencies to own operations		<ul style="list-style-type: none"> • Provides access to services for traditionally underserved groups • Increased process efficiency or accuracy
 Cybersecurity <ul style="list-style-type: none"> • \$44M: Cybersecurity enhancements, identify governance and access management, (OITS, KBOR, Judicial) 	Yes	One-time use of funds		<ul style="list-style-type: none"> • Cybersecurity audit and Task Force findings

¹ Examples intended to capture largest projects submitted; Note: numbers may not tie due to rounding

Recall | Advisory Panels to develop program templates for SPARK Executive Committee recommendations to define programmatic investments

Efficiency & Modernization Investment Program

State IT infrastructure

Alignment to SPARK Guiding Principles

- ☐ Sustainable program & investment
- ☐ Local / agency funding opportunity
- ☐ Long-term systemic impact
- ☐ Equitable opportunities and outcomes
- ☐ Flexible investment strategy
- ☐ Measurable outcomes

For Panelists

Key Discussion Questions

- What should the **target outcomes** be?
- How can we ensure these programs are **impactful, equitable, and feasible**?

Confidential & Preliminary - Not for Distribution

Program Description

Goals / Target Outcomes

...

Target Ask

Funding Ask	\$XM
Type	E.g., Long term
Impact	E.g., High (X Kansas impacted)
Difficulty	E.g., High
Trade-offs	E.g., Compared to other programs, Compared to min. viable ask

Minimum Viable Ask

Funding Ask	\$XM
Type	E.g., Long term
Impact	E.g., High (X Kansas impacted)
Difficulty	E.g., High
Trade-offs	E.g., Compared to other programs, compared to target ask

Additional Impact & Feasibility Details

- **Investment type:**
 - E.g., One-time use of funds, targeted to surge needs
- **Workability / Executability:**
 - E.g., Leverages existing State programs or partnerships
- **Equity:**
 - E.g., Drives equitable access across geography, race/ethnicity, socioeconomic status, etc., and for those disproportionately impacted by COVID

Additional Considerations

- **Allowability considerations**
 - E.g., Good pathway to allowability
- **Other funding sources & programs:**
 - E.g., Federal funds, co-investment opportunities
- **Interdependencies:**
 - TBD

Draft

 - E.g., Good pathway to allowability
- **Other funding sources & programs:**
 - E.g., Federal funds, co-investment opportunities
- **Interdependencies:**
 - TBD

Efficiency & Modernization Investment Program

Local safety and security

Alignment to SPARK Guiding Principles

- ☐ Sustainable program & investment
- ☐ Local / agency funding opportunity
- ☐ Long-term systemic impact
- ☐ Equitable opportunities and outcomes
- ☐ Flexible investment strategy
- ☐ Measurable outcomes

For Panelists

Key Discussion Questions

- Is the program description accurate?
- What should the **target outcomes** be?
- How can we ensure these programs are **impactful, equitable, and feasible**?

Program Description

...

Goals / Target Outcomes

...

Target Ask

Funding Ask	\$XM
Type	E.g., Long term
Impact	E.g., High (X Kansas impacted)
Difficulty	E.g., High
Trade-offs	E.g., Compared to other programs, Compared to min. viable ask

Minimum Viable Ask

Funding Ask	\$XM
Type	E.g., Long term
Impact	E.g., High (X Kansas impacted)
Difficulty	E.g., High
Trade-offs	E.g., Compared to other programs, compared to target ask

Additional Impact & Feasibility Details

- **Investment type:**
 - E.g., One-time use of funds, targeted to surge needs
- **Workability / Executability:**
 - E.g., Leverages existing State programs or partnerships
- **Equity:**
 - E.g., Drives equitable access across geography, race/ethnicity, socioeconomic status, etc., and for those disproportionately impacted by COVID

Additional Considerations

- **Allowability considerations**
 - E.g., Good pathway to allowability
- **Other funding sources & programs:**
 - E.g., Federal funds, co-investment opportunities
- **Interdependencies:**
 - TBD

Efficiency & Modernization Investment Program

Local continuity of operations

Alignment to SPARK Guiding Principles

- ☐ Sustainable program & investment
- ☐ Local / agency funding opportunity
- ☐ Long-term systemic impact
- ☐ Equitable opportunities and outcomes
- ☐ Flexible investment strategy
- ☐ Measurable outcomes

For Panelists

Agenda | Initial ideas & updates

- 1 **Overview:** Purpose of today, where we are in the process, what's next (20 min)
- 2 **Review:** Approach to filtering submissions (45 min)
- 3 **Consider:** Potential programmatic areas & opportunities for impact (25 min)
- 4 **Discuss:** Next steps in shaping and prioritizing the investment portfolio (30 min)

Next steps | Homework to prepare for Meeting #4

Following this session:

- SPARK support staff to update program templates based on our discussion today and share with panelists
- Panelists to build on, validate and provide feedback on programs via exit survey

Confidential & Preliminary - Not for Distribution

Efficiency & Modernization Investment Program

State facilities modernization

Alignment to SPARK Guiding Principles

- ☐ Sustainable program & investment
- ☐ Local / agency funding opportunity
- ☐ Long-term systemic impact
- ☐ Equitable opportunities and
- ☐ Flexible investment strategy
- ☐ Measurable outcomes

Key Discussion Questions

- What should the target outcomes be?
- How can we ensure these programs are impactful, equitable, and feasible?

State IT infrastructure

Alignment to SPARK Guiding Principles

- ☐ Sustainable program & investment
- ☐ Local / agency funding opportunity
- ☐ Long-term systemic impact
- ☐ Equitable opportunities and outcomes
- ☐ Flexible investment strategy
- ☐ Measurable outcomes

Key Discussion Questions

- What should the target outcomes be?
- How can we ensure these programs are impactful, equitable, and feasible?

Draft

22

Backup | Looking ahead, panel will build investment case for priority programs, assessing impact and feasibility of investment recommendations

Impact

Level of impact

Depth of impact (i.e., marginal vs. foundational impact; minor vs. core need)

Scope of impact

Breadth / reach of impact (e.g., # of Kansans, businesses, industries, counties, etc.)

Duration of impact

Length of impact without additional funding (i.e., long-lasting impact vs. short-term relief)

Equity

Extent in delivering benefits to underserved populations (such as by geography, race / ethnicity, or socioeconomic status)

Feasibility

Workability / executability

Ability to execute opportunity by leveraging existing agency capability, infrastructure / tools, or partnerships

Ongoing investment needs

Ability to discontinue investment (i.e., for temporary surge support only), or availability of other funding sources to continue investments

Key topics and logistics for our next meeting

Meeting date:
To be scheduled

Goals of Meeting #4:

Review and pressure test **emerging program templates**

Prioritize ideas and narrow potential portfolio considering panel / guiding principles, impact, feasibility, and funding envelope

Availability survey:

Please take 5 mins to provide your availability for Meeting #4 [here](#)

Exit survey and homework is forthcoming

Questions?

Backup | "Other" submissions excluded from state and local categories

ID	Submission	Focus Area	Submitted by	\$M Requested
EM041	Power Factor Correction	Facilities modernization	Ally Energy Solutions	10
EM076	Transition skilled labor credentialing into the 21st century	IT infrastructure	Merit International, Inc	10
EM079	SCaaS, DocAI	IT infrastructure	Resultant, LLC	2
EM080	Enterprise Cross Tracking Platform (Assessment and Implementation)	IT infrastructure	Google Cloud	None
EM082	Digitization and Centralization of Vital Records	IT infrastructure	Google Cloud / SpringML	None
EM091	SKI - Smart Kansas Initiative	IT infrastructure	Viaanix	1
EM104	Infrastructure Modernization Assessment and Roadmap	IT infrastructure	Google Cloud / SpringML	None
EM105	Comprehensive Software Platform	IT infrastructure	Viaanix, Inc.	8
EM137	Vision Zero Public Awareness and Transportation Safety Program	Safety and security	NovoaGlobal, Inc	7
